

MASTERCARD TRUSTED SERVICE MANAGER SOLUTIONS

LIST OF MASTERCARD APPROVED TRUSTED SERVICE MANAGER SOLUTIONS (TSMs)

30 NOVEMBER 2018

This document provides a list of approved Trusted Service Manager Solutions (TSMs) compliant with Mastercard's Trusted Service Manager requirements.

A Letter of Approval (LoA) is issued to the Software Vendor or Service Provider for the product that has successfully completed the approval process defined by Mastercard.

Legend:-

TSM Vendor: An entity that owned the facility where the TSM system is hosted. A TSM vendor is responsible for all matters pertaining to TSM approval process.

TSM System: An application server which is configured from a TSM Platform to operate TSM roles in an NFC ecosystem.

TSM Platform: An application suite that typically comprises of functional modules including payment application personalization & lifecycle management, SE lifecycle management, SE security key management, inter-system messaging communication & notification, NFC service eligibility control, remote administration management and monitoring & reporting services.

MCM: A Payment Application that conforms to the M/Chip Mobile Requirements and M/Chip Mobile Technical Specifications.

MTBP: A Payment Application that conforms to the Mastercard TEE Based Payment Requirements.

Location: The location of TSM hosting.

GVCP: A Mastercard program covering assessment of the physical security of a manufacturing site and logical security of production data network environment, hardware, and software.

Approval Types:

- N: New Approval
- U: Upgrade
- R: Renewed

Note:-

1. Issuing a Functional Compliance Letter for an approved Software Vendor or Service Provider has withdrawn from March 2017 and replaced with a Letter of Approval (LoA).
2. Approved TSM does not require to go through an annual functional evaluation for renewal process if the TSM system does not have any new changes. This has been taken effect from March 2018.

The following are approved Software Vendors and Service Providers that have completed Trusted Service Manager system functional evaluation for the use of MCM/MTBP implementation and approved successfully for incorporation into a GVCP certified site.

TSM Vendor	TSM System	TSM Platform	MCM	MTBP	Hosting Location	Approval Date
